Libraries are a vibrant, central piece of every campus, a library’s value and contributions extend to learning creativity, retention, graduation, and skill development. Without librarians, making these connections, students and faculty would be left

without navigators. The present case deals with such an issue.

2. Prof. Laxmi Niwas Pandey, Vice-Chancellor, Kameshwar Singh Darbhanga Sanskrit University, Darbhanga, has apprised this Court that there is only 01 sanctioned post of Librarian and in the absence of roster clearance, the requisition could not be sent. However, he submits that necessary action shall be taken for roster clearance and after completion of

formalities, the requisition shall be sent.

3. Mr. Vivek Prasad, learned *Amicus Curiae*, further informed this Court that in Bihar Animal Sciences University, Patna, altogether 11 posts have been sanctioned for Librarian-cum-Deputy Librarian/Assistant Librarian, out of which, only 03 posts are filled up and yet 08 of the sanctioned posts are still lying vacant. It is further urged that as per his instruction, the process is going on to send the requisition.

4. After having noticed the vacancy position, we are of the humble view that in all the aforementioned Universities, almost all of the posts of Librarian/Deputy Librarian and Assistant Librarian are vacant on date due to which, the proper functioning of the libraries across all the Universities in the State is completely come to a temporary halt and thus jeopardizing the future, prospect and career of the students, besides affecting academic environment of the College and Universities. We have been informed during this proceeding that in some of the Universities, roster clearance is under process and in some of the Universities, requisitions have been sent to the Director, Higher Education but till date, no action has been taken for filling up the vacancies of Librarian/Deputy Librarian/Assistant Librarian.

5. In order to resolve the dispute, and the acute scarcity of Librarians, as has been raised in the present Public Interest Litigation, we direct all the Vice-Chancellors of the Universities to ensure that where the roster clearance has not been done, they shall take all the requisite necessary actions to get the roster clearance done expeditiously and thereupon, send the requisition to the Director, Higher Education. Since the roster clearance is to be made at the level of the Divisional Commissioner, we further direct the Divisional Commissioner of all the Divisions, where the process of roster clearance is pending, to take up the matter forthwith and pass necessary order with regard to the roster clearance. It is made clear that in those Universities where the list of necessary vacancy position has not been sent for roster clearance, the concerned Vice-Chancellor of the said Universities must ensure and send the list of on date vacancies to the concerned Divisional Commissioner for roster clearance. In order to ensure that all the vacancies are filled up immediately, we will also provide the timeline to all the concerned authorities. In those cases, where vacancies position of the posts have not been sent up to the office of Divisional Commissioner, it must be sent within two weeks from today. The Divisional Commissioners of respective

division are directed to complete the formalities of roster clearance within a further period of two weeks. On receipt of the roster clearance, the Vice-Chancellor of different Universities shall ensure that requisition for filling up the vacancies must reach in the office of Director, Higher Education within a further period of two weeks. It is expected that all the authorities must adhere to the timeline, framed hereinabove.

6. The librarian is the custodian of the intellectual capital of a University. Their role is a hybrid of an academic researcher and an administrative manager. Therefore, a vacancy in this post is not a mere delay, it is a suspension of the University's primary duty to provide accessible knowledge. Modern University librarians are specialized information scientists. Their role is to ensure that research is both efficient and credible. There is a difference between search and research, and the librarians teach students how to distinguish between them, train them to evaluate the authority, bias, and peer-review status of sources.

In the eyes of the law, a vacant librarian post, especially in a University is not merely an administrative oversight; it is seen as a functional breakdown in the "administration of justice" and the "academic health" of an

institution. The vacancy of a librarian is not an administrative choice but a failure of the State's duty to provide the necessary infrastructure for education and justice.

In the absence of a Librarian, physical collection of books deteriorate without proper preservation protocols, reference services remain absent, institutional subscriptions to journals and databases are not procured, managed, or optimised, and no systematic weeding or collection takes place.

7. With the aforesaid direction and observation, the matter be listed on 06.07.2026.

8. This court places on record its appreciation to all the Vice-Chancellors and other officials of the aforementioned Universities who are connected virtually in the proceeding and extended their assistance to their Court.
